

# **Power America**

## **CLEANING SYSTEMS**

★ Exclusive New England Distributor ★  
of the *ACC Eco-POWERBRUSH*

***This unit requires only  
one person to operate  
and cleans the vehicle  
in less than 9 minutes  
using very little water.***

Because your water usage is drastically reduced, you have less water to dispose of. The unit does not need floor mounted tracks or rails. The soft brushes will not cause decals or expensive custom paint to peel off the vehicle surface.

This unit perfectly cleans the difficult areas such as window corners, around lights, and the top rub rails, eliminating streaks and runs.

***Want to See One?***

***We will bring one to you to examine  
- at your site -***

**800-447-1226**
