## Magnum

### Polished Aluminum Cleaner & Restorer

#### WHAT IS MAGNUM?

A ready to use heavy duty acid cleaner for use in cleaning polished aluminum and stainless steel. This product will effectively remove heavy stains, soot and road films as well as remove the corrosion and oxidation from the polished surfaces. Contains inhibitors that will protect surface from pitting and etching.

#### APPLICATIONS:

- Polished Aluminum Trailers & Tanks
- Anodized Aluminum
- Aluminum Wheels
- Restoration
- White Rust & Pitting

#### Available Packaging:

- 55 Gallon Drum
- 30 Gallon Drum
- 5 Gallon Pail

#### TECHNICAL DATA:

Color.....	Clear
Odor.....	Acid
pH.....	1
Form.....	Liquid
Flash Point.....	212°F
Foam.....	Moderate
Biodegradable.....	100%

#### BENEFITS:

- Cleans Polished Aluminum unlike any other traditional acid product.
- Removes oxidation and white rust that are not removed with conventional acids.
- Cleans better than conventional acid products and WILL NOT etch surfaces.
- Penetrates and removes oxidation and corrosion.
- Removes heavy soot and road grime WITHOUT heavy scrubbing.
- Much safer to use and handle than conventional acid.
- Will not harm glass.

#### DIRECTIONS FOR USE:

Read the entire label and Material Safety Data Sheet before using this product. *Always test on an inconspicuous area before using.*

MAGNUM must be used straight. Diluting product may cause etching and pitting of polished aluminum surfaces. Never apply to hot surface. Apply MAGNUM to a cool surface under low pressure (40-50 psi). Apply bottom to top with applicator to an area that is manageable, *making sure that the product does not dry on surface.*

To Rinse, apply cold water at high pressure to wet surface, cleaning from bottom up making sure that the nozzle is within close proximity of the surface being cleaned. Always do a final rinse from top to bottom.

**SPECIAL NOTE: DO NOT APPLY TO HOT SURFACES. MUST APPLY STRAIGHT UNDER LOW PRESSURE. MUST RINSE WITH COLD WATER. NOT DILUTABLE.**
