Cold Water Cleaning System
"Cleaning Power Right Where You Need It!"

This pressure washer is specially built for use in the food service or institutional market, where typically the customer supplies their own hot water to the unit.

A Stainless Steel Cold Water Model, this unit is specifically designed to handle increasing water temperatures up to 160°F. For tougher applications, an optional hot seal kit will allow you to clean using hot water up to 190°F. Auto on/off with adjustable time delay shutdown.

Features:

- Belt Driven
- Front Mounted Controls
- Stainless Steel Construction
- Versatile Mounting or Portability
- Water Tight Electrical Enclosure NEMA 4
- High Temperature Compatibility
- Downstream Injection
- Unloader with Pressure Relief Valve
- Heavy Duty 50' Hose with Adjustable Pressure Wand
- Hour Meter
