Ultra Wax

Spray Wax & Drying Agent

WHAT IS ULTRA WAX?

A Liquid protectant containing surface reactive polymeric silicones that provide luster and durability to clear coats and other painted surfaces. This premium clear spray wax will provide excellent beading and will leave behind a protective coat. This product is formulated with a deep cherry scent leaving areas smelling fresh. Expedites the drying of the vehicles surface, preventing the possibility of water spotting.

BENEFITS:

- Advanced repelling protection against acid rain, road salt and other environmental pollutants.
- Prevents surface degradation such as paint and dulling.
- Enhances luster.
- Increases durability to weathering.
- Improves water repellency.
- Eliminates window streaking.
- Helps mask foul odors sometimes found in wash bays and systems.

DIRECTIONS FOR USE:

Before using this product, please read the entire label and Material Safety Data Sheet.

Ultra Wax may be applied under low or high pressure. For maximum performance, Ultra Wax should be followed up with a high pressure fresh water rinse. Dilute Ultra Wax so that the FINAL application dilution ratio is 150-300 parts water to 1 part solution.

Avoid washing hot equipment & in the sun. Unrinsed cleaning solutions may leave behind streaking and spotting.

Applications:

- Trucks & Trailers
- All Vehicle Types
- Rinse Aid
- Automatic & Manual Systems

Available Packaging:

- 55 Gallon Drum
- 30 Gallon Drum
- 5 Gallon Pail

TECHNICAL DATA:

Color.....Red
Odor.....Cherry
